Access control and least privilege: implementation record

Orchid Hill Securities Limited. Closure record dated 2026-10-16. Control owner: Dev Malhotra, Chief Information Security Officer. Version 1.0. Approved by Rajiv Sinha, Chief Executive Officer, on 2026-10-16. Effective from 2026-10-16.

Control: access control and least privilege. The control is implemented across OH Trade admin, ClientSphere Back Office, DP Core, OH Onboard, SupportDesk CRM and the Risk and Surveillance Engine. Owner: Chief Information Security Officer.

What was implemented

- Every user account in the six systems was reviewed against the staff list. 11 accounts of people who had left the company were removed.
- Administrator rights were reduced from 19 people to 6 named people, each with a written reason.
- Access is now granted on a role basis only, with approval by the department head and the Chief Information Security Officer.
- The access review is a standing quarterly task. The next review is due on 15 January 2027.

Evidence of operation

- Evidence: the access review sheet with reviewer sign-off for each system, the leaver removal tickets and the administrator rights list are held in the compliance repository.
- The control has been operating since 16 October 2026 and the first quarterly cycle is complete.
